EDUCATION

- Korea Advanced Institute of Science and Technology (KAIST)** Daejeon, South Korea
M.S. Student, Department of AI Computing (Advisor: Prof. Jun Han) Sep 2026 – Present
- Korea University** Seoul, South Korea
B.S. in Cyber Defense; GPA: 3.89 Mar 2022 – Feb 2026
 - Relevant Coursework:** Computer Networks, Operating Systems, Data Structures, Analysis of Algorithms, Digital Forensics

RESEARCH EXPERIENCE

- Sensing Intelligence and Cyber-Physical Security (CyPhy) Lab, KAIST** Daejeon, South Korea
M.S. Student & Researcher (Advisor: Prof. Jun Han) Jul 2025 – Present
 - mmWave Eavesdropping Vulnerabilities:** Contributed to a security research project exploring eavesdropping techniques via mmWave radar, analyzing intercepted signals to reconstruct sensitive information.
 - mmWave Radar Sensing & SAR Imaging:** Conducted research on privacy-preserving radar sensing using TI IWR1843BOOST (77 GHz) and developed a data-processing pipeline for SAR image reconstruction.
 - Lying Position Monitoring:** Designed a SAR-based monitoring pipeline (data collection, feature extraction, semi-supervised classification) to prevent SIDS and pressure ulcers in bedridden patients, achieving 95.0% accuracy in preliminary evaluations.
- Digital Forensics Research Center (DFRC), Korea University** Seoul, South Korea
Undergraduate Researcher (Advisor: Prof. Jung-heum Park) Aug 2024 – Jun 2025
 - Document Forensics & Tooling:** Analyzed the internal structures of OOXML (DOCX, PPTX, XLSX), and PDF files. Developed Python-based forensic tools for metadata extraction, structural parsing, and artifact analysis.
 - LLM Application Forensics:** Investigated and extracted recoverable residual artifacts from conversational AI platforms across browser and application environments.

PUBLICATIONS & PRESENTATIONS

- ACM MobiSys 2026:** Poster: Lying Position Monitoring for Immobile Patients via mmWave Imaging (**Best Poster Award**)
Dongmin Yu*, Jihyun Lee*, Sihun Yang, and Jun Han *Equal contribution

SELECTED PROJECTS

- KUnnect (Project Matchmaking Platform):** Developed a team-building and project recruitment web service for university students as a core developer in the Korea University Software Development Club, DevKor (Sep 2023 – Aug 2024).

HONORS AND LEADERSHIP

- Best Poster Award, ACM MobiSys 2026** Jun 2026
 - Received the Best Poster Award for “Lying Position Monitoring for Immobile Patients via mmWave Imaging.”
- Seokrim Scholarship** Mar 2024
 - Selected as one of 46 students university-wide to receive the Seokrim Scholarship from the KU Professors’ Scholarship Association.
- College Student Council Vice Chair** Nov 2022 – Oct 2023
 - Served as Vice Chair of the College Student Council; organized hackathons and festivals.
- Department Class Representative** Mar 2024 – Feb 2026
 - Served as Department Class Representative; delivered the 2026 departmental graduation speech.

PROFESSIONAL ACTIVITIES

- External Reviewer**
ACM MobiSys (2026), ACM SenSys (2026), ACM HotMobile (2026), ACM WiSec (2026), ACM BuildSys (2026)

SKILLS SUMMARY

- Languages:** Python, C, C++, MATLAB, JavaScript, TypeScript, LuaScript, LaTeX
- Frameworks & Libraries:** PyTorch, Node.js, React, Next.js
- Domains:** Cyber-Physical Security, mmWave Radar Sensing, SAR Imaging, Digital Forensics
- Tools & Platforms:** Git, Docker, Ansys HFSS, Fusion 360, Linux, macOS, Adobe Illustrator
